

# WHY THREATGEN?

## About ThreatGEN

Founded in Sugar Land, Texas in 2017, ThreatGEN delivers a solution to bridge “the ICS Cybersecurity skills gap” utilizing its Red vs. Blue Training Solutions and ThreatGEN Industrial Security Services.

Our Red vs. Blue gamification training solutions use cutting-edge computer gaming technology to provide an exciting & modernized approach to industrial cybersecurity training, both practical and cost effective!

ThreatGEN Industrial Security Services are delivered worldwide by world-renowned industrial cybersecurity experts (we literally wrote the books industry uses) using strategically chosen partnerships to create a holistic service offering.

## Our Team

Our team(s) are comprised of a combination of professionals, integrated into not only delivering our OT Security Services, but also instructing and being industry thought leaders:

- Project Manager
- Principal Consultant / Principal Engineer – over 20 years’ experience
- Consultant – over 5 years’ experience

## Our Other Products & Services

- Service package - ThreatGEN PENTEST
- Service package – ThreatGEN Gap Analysis
- ThreatGEN® Red vs. Blue gamification simulation (“gamulation”)
- ICS 101: Introduction to Intermediate OT/ICS Cybersecurity (version 6.0)
- ICS 201: Industrial Cybersecurity Vulnerability & Risk Assessment (version 2.0)

## Why ThreatGEN OT Security Services?

Cyber security is no longer just an engineering problem to put off – increasingly blatant cyber incidents underscore the catastrophic damage and costs that cyber-attacks pose. Industrial companies now, more than ever, need to improve the security of their industrial control systems (“ICS”).

ThreatGEN, a thought leader in OT cybersecurity, has the experience and senior level engineering expertise to help you develop your strategy, assess your risk, create a program, and remediate your gaps & vulnerabilities.

Our process is derived from our books, written by our Founder Clint Bodungen (“*Hacking Exposed: Industrial Control Systems*”) and Director of our ThreatGEN OT Security Services Division Pascal Ackermann (“*Industrial Cybersecurity: Efficiently secure critical infrastructure systems*” and “*Modern Cybersecurity Practices: Exploring And Implementing Agile Cybersecurity Frameworks and Strategies for Your Organization*”).

### Some of the benefits of working with ThreatGEN:

- ✓ We take a mentoring style approach – leaving our clients better able to implement their own OT cyber security plan than when we started.
- ✓ We are industry instructors for numerous multi-edition ICS cybersecurity training courses.
- ✓ No “bait and switch” – you know the proven track record of our team members on your project.
- ✓ We literally wrote the book(s) that cybersecurity professionals read and use.
